DSHS changed the way cases are reported again.. It now includes a To Be Determined Category. This category is for those that are not symptomatic, have had no epidemiological trace to a positive tested COVID-19 person, and have not received a PCR test. After a review from DSHS, if it is determined the person meets the criteria, they will be moved to the ACTIVE category. If it is determined that the person does not meet confirmed criteria, that record will be removed entirely from the chart.
