

GUADALUPE COUNTY

OFFICE OF EMERGENCY MANAGEMENT

101 EAST COURT STREET
SEGUIN, TEXAS 78155

September 17, 2020

For Immediate Release:

9 New "TBD"; 12 New Active; 0 "TBD" moved to Active; 4 "TBD" removed; 23 Recovered; 0 additional reported deaths

During data review and cleanup efforts, Region 8 identified a large number of electronically reported files in the Texas Health Trace system that are not currently being included in the daily reports being reported to Guadalupe County. After the initial cleanup, they determined that there would be a significant increase in case counts for many counties in Region 8.

Due to the updated data, the Texas Department of State Health Services will be adding 1601 cases to the COVID-19 numbers for Guadalupe County starting early next week. These cases have been documented since our first case in March through September 9, 2020.

Many of these cases have recovered, but once the data is provided to the Emergency Management Office, we will be better able to determine these cases' location and status.

HOSPITALIZATIONS:

GRMC is reporting one hospitalized patient at this time. 7 day moving average for hospitalizations is <1 per day.

DEATHS:

Since the start of COVID-19, there have been 42 deaths reported to Guadalupe County Emergency Management by DSHS. Guadalupe County expects the number of deaths to increase due to the Texas Department of State Health Services webpage reporting 76 deaths. Due to the lag in the reporting, we have not yet been provided all of the deaths.
