

# TXDOT I-10 – Jan. 10, 2024

## TO BE SHARED WITH COMMUNITY:

Texas Department of Transportation’s contractor has begun the widening and safety improvement project on I-10 between FM 464 and SH 130, this project will also include resurfacing operations between SH 123 and SH 130, east of Seguin. During the current phase of the project, the access road along I-10 East, between SH 46 and FM 78, will be permanently closed in the westbound direction. The I-10 East entrance ramp from the same westbound access road will also be eliminated and the southbound lane of FM 78 under the I-10 overpass will be closed while the northbound lane will remain open. If you’re traveling in or around the work zone, obey all early warning signs, reduce your speed, and watch for crewmen.

## DETOURS

**ITEM 1:** Traffic on FM 78 seeking to enter I-10 East should turn onto the I-10 westbound access road and take the turnaround at SH 46 to get onto I-10 East.

**ITEM 2:** Southbound FM 78 traffic seeking to continue on FM 78 southbound should turn right onto the I-10 westbound access road until the turnaround at SH 46, take the turnaround and merge on the I-10 eastbound access road and continue back to FM 78.

Message boards will be placed in the area to notify drivers of closures.
